John,

We collected a water sample from an unexpected source today under DAS R34317. This will increase the number of samples in our original request by one sample for both trace VOAs and MCHM/PPH analyses. This sample will be shipped next week along with the planned groundwater samples. We will also have an additional trip blank for Trace VOAs that will be shipped with next the samples next week.

The groundwater sampling is scheduled to begin on Monday, February 3. The next sample shipment will be on Monday for Tuesday delivery.

**Dennis et al:**

Please send the samples for R34317-CT6665 to our EPA Region 3 Laboratory here at the Environmental Science

Center, Ft. Meade, Md. and notify the Region 3 Laboratory each day that samples are shipped. The info required is the DAS #, the number of samples for which analyses, and the FedEx Tracking Numbers. This can be done by phone or e-mail. Contact info:
